Summary

I am a Junior Developer with a passion for understanding how things work and improving them. With several years of programming experience, I specialize in developing efficient, well-organized and maintainable code. I am an advocate for keyboard-centric workflows and strive for continuous learning in programming and technology.

Through the years I have used various frameworks and programming languages for different projects. I have also been working on a linux system for a couple of years now. Because of this I now have broad knowledge on subjects related to programming.

Experience as Junior Developer

Netinium B.V.

06-02-2023 - 07-07-2023

- Fixing sonar code smell, bad code issues.
- Using ArchTest to test the JAVA architecture on design rules.
- Developing and researching a way to simulate realistic power usage data.

Mushroom

25-01-2021 - 11-06-2021

- Used Xamarin to add new features and fix bugs for an Android application.
- Developed unit tests for core functionalities.

Optimum Prime B.V.

3-2-2020 - 19-6-2020

- Built a front-end React application for a financial system.
- Implemented Google Protocol Buffers to handle backend data integration.

Education

HVA, Amsterdam, The Netherlands Technische Informatica, Bachelor; 1-9-2021 - Present;

- achieved consistently high grades in programming courses.
- Engaged in theoretical learning to explore new methodologies.
- Volunteered for events, including a CTF challenge.
- Served as class representative during the first year.
- Assisted a teacher as TA course embedded systems.
- Participated in around several group and individual projects

ROC Kop van Noord-holland, Schagen, The Netherlands Media- and Applicatieontwikkelaar, MBO;
1-8-2018 - 18-6-2021

- Developed a pharmacy website enabling user login, management, and data table adjustments.
- Worked on multiple projects, completing tasks from documentation to implementation.
- Consistently earned high grades in programming and English.
- [MATWENTE](#)
- [AMO04](#)

Courses

- MTA: HTML5 Application Development Fundamentals [Certiport certificate](#)
- MTA: Introduction to Programming using HTML and CSS [Certiport certificate](#)
- Drivers Licenses: AM, B, T

GitHub

[personal-nvim-settings](#)

: My settings for neovim, my preferred IDE.

[ESP32-S3-Breadboard-Adapter](#)

: An adapter PCB for the esp32 s3

Miscellaneous

Hobbies

- Reading
- Gaming
- Watching films
- Tinkering with technology

Languages Dutch (native), English (fluent(B2)), Japanese(Duolingo unit 5+)
